HOBBIES

Long Walks
Work Out
Electronics Hobbyist

EDUCATION

Institute Of Engineering & Management
2022 – Present
B.TECH – EEE
6th Semester – 7.43 SGPA

AGRASAIN BOYS' SCHOOL
2013 - 2020
ISC (SCIENCE) – 88%
ICSE – 92%

OPPURTUNITY

I am a dedicated and detail-oriented Electrical and Electronics Engineering student, IT enthusiast eager to apply my knowledge of web development, embedded technology, circuit design, Java programming, and database management in innovative projects. I aim to contribute to cutting-edge advancements in software development, automation, smart systems, cloud-based solutions, or enterprise applications while continuously expanding my technical expertise. With a strong foundation in problem-solving and teamwork, I seek opportunities to grow as a developer and make meaningful contributions to scalable, secure, and efficient IT solutions. My long-term goal is to drive impactful changes in the technology sector through software innovation and optimized data management.

SKILLS

FULL STACK WEB DEVELOPER – INTERMEDIATE
DATABASE MANAGEMENT SYSTEM – INTERMEDIATE
MS WORD – INTERMEDIATE
MS EXCEL – INTERMEDIATE
PYTHON, JAVA, C++, C – INTERMEDIATE
ML - BEGINNER

EXPERIENCE

Internship at ElectroMeter Corporation (EMC)
January 2nd – February 8th, 2025

Spearheaded an end-to-end project, developing both the hardware and software independently, designed custom PCB boards for IoT applications, developed a website with full-stack implementation (frontend and backend) for project deployment. Integrated and tested IoT devices to enhance project functionality.
